

Immediate Complete Prosthodontics:

The Full Arch Bridge on 4 Implants
Delivered on the Day of Implant Surgery!

Dr. Gary T. Kutsko

Gary T. Kutsko, D.D.S., is a graduate of the Ohio State University College of Dentistry. After graduation, he joined the Veteran's Administration where he completed his residency in fixed and removable Prosthodontics. Subsequently, he opened a Prosthodontic practice in Akron, Ohio, where he worked for about 25 years.

In 2008, Dr. Kutsko helped to establish The Clear Choice Dental Implant Center in Cleveland, Ohio, where he was the Director of Prosthodontics. Since then, he has developed his techniques and protocol for the full arch bridge on four implants (All on 4) that is delivered on the day of surgery. Thirty years of clinical practice and direct patient care has led to his primary focus on the All on 4 technique at this point in his career. Most recently, Dr. Kutsko opened a private practice in Westlake, Ohio.

Seminar at a Glance...

"Full arch bridgework supported by four implants is fast becoming one of the most popular restorations for our edentulous patients or those patients who are faced with the loss of an arch of teeth. It is possible to implement a team approach to the surgical, prosthetic, and laboratory phases of treatment and deliver a provisional full arch bridge on the same day. We have a great opportunity to provide life-changing treatment to a group of our patients who are faced with the loss of an arch of teeth and who traditionally have only had removable prosthodontics as a solution. The principle involves the placement of four implants, two anteriorly positioned in an axial fashion and two angled in the posterior to avoid pertinent anatomical structures."—Gary T. Kutsko, D.D.S.

Course Objectives

In this course Dr. Kutsko will:

- Provide the scientific information to help attendees understand the biomechanics and design of the full arch bridge on four implants.
- Show how this type of restoration is accomplished by reviewing the protocol used to achieve high levels of success.
- Discuss the many benefits of this procedure for patients and practices.

Dr. Kutsko's presentation is courtesy of Thommen Medical USA.

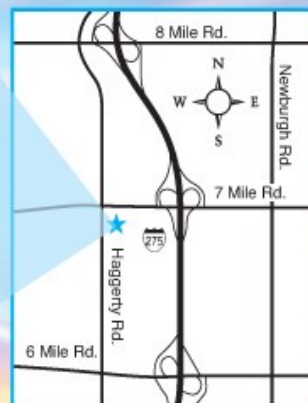

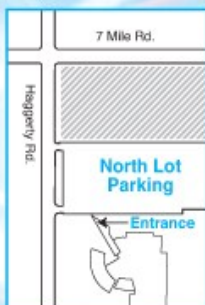

Immediate Complete Prosthodontics:

The Full Arch Bridge on 4 Implants
Delivered on the Day of Implant Surgery!

Date: Thursday, March 8, 2012

Time: Registration 6 p.m. - 7 p.m.
(Light refreshments will be served)
Program 7 p.m. - 9 p.m.

Place: VisTaTech Center at Schoolcraft College
18600 Haggerty Road
Livonia, Michigan

Featured exhibitors will include:

Thommen Medical USA

Henry Schein Dental

SK Dental Lab, Inc.

Philips Sonicare

Orasoptic

Expertec Dental Laboratory

Dental Art Laboratories

Nobel Biocare

3D Maxillofacial Imaging

BioHorizons

Advanced Dental Imaging of Michigan/Martines
Dental Lab

Keystone Dental

Dentsply Caulk, Midwest, Cavitron and NUPRO

Procter & Gamble

GlaxoSmithKline Consumer Healthcare

Qualifies for two hours of Academy of General Dentistry and State of Michigan continuing education credit.

Academy of General Dentistry approved PACE program provider for FAGD/MAGD credit. Approval does not imply acceptance by a state or provincial board of dentistry or AGD endorsement.
